DIARY NOTES

DD/S

3 February 1967

1. Lenten Religious Services: Colonel White called to find out whether we are paying appropriate attention to each of the visiting ministers who are holding religious services in the Agency auditorium. I arranged with Personnel to have a senior officer of the Agency take each of the ministers to lunch.

2. Payroll Lag: Colonel White inquired as to whether we have considered the payroll lag recently mentioned by John Macy. Macy is proposing that the normal lag of two weeks be reduced to a few days if possible. I advised that our system is such that we can do nothing now but when we come up with a computer program we will be able to reduce this payroll lag.
